WHY  
PUPPY  
PRE-SCHOOL?

Puppy pre-school gives your pup the best possible start in life. It helps build confidence, encourages positive social skills, and supports healthy development during those all-important early weeks. Through safe play, gentle guidance, and structured learning, puppies learn how to interact with other dogs and people in a calm, positive way.

Alongside fun and enrichment, we focus on good manners, routine, and emotional balance — helping your puppy grow into a happy, well-rounded dog you'll be proud of.
